### PRODUCT INFORMATION

**Organic BioLink® Boron Fertilizer** can be used to correct and prevent boron deficiencies in all plants.

**Organic BioLink® Boron Fertilizer** is an essential plant nutrient that is involved in sugar and carbohydrates development.

**Organic BioLink® Boron Fertilizer** is readily available to offer improved uptake by roots and foliage, providing a quick boost to plants under nutrient stress and correcting deficiencies.

### DIRECTIONS FOR USE

#### SHAKE VIGOROUSLY BEFORE USING.

**CAUTION:** The use of this fertilizing material on any crops other than those recommended may result in serious injury to the crop(s). Contact your local county agency for specific information. This product should only be used according to label instructions.

**Organic BioLink® Boron Fertilizer** can be applied to all food and non-food crops such as brassica (cole), berries, citrus, field vegetables, fruiting vegetables, fruit trees, grapes (raisin, table and wine), leafy vegetables, root and tuber vegetables, row crops, strawberries, tree nuts, ornamental trees, shrubs, flowers, containerized plants, lawns and turf. Apply as a foliar or soil drench using conventional spray equipment or chemigation.

**Foliar Application:** Use ½ to 2 quarts per acre. Apply to the plant foliage to the point of run-off, throughout the growing season as needed. On vegetables, field and row crops, apply when plant is 8 to 12 inches in height, continue application every 2 to 4 weeks as needed.

**Soil Application:** Use 1 to 4 quarts per acre. Apply through the drip system or injected in to the soil. This product can be mixed with pre-plant fertilizers or applied with side dress fertilizers.

**Compatibility:** Always conduct a compatibility jar test before mixing Organic BioLink® Boron Fertilizer with new products.

**NOTE:** Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

### STORAGE & DISPOSAL

Store in original container out of direct sunlight. Triple rinse and puncture empty container. Dispose of empty container and excess tank-mix spray according to local, state and federal regulations.
