

OXI-PHOS

6-18-2

2) mitigate the effects of damage from weather; and 3) correct nutrient deficiencies.

GUARANTEED ANALYSIS

Total Nitrogen (N)	6.00%
4.16% Ammoniacal Nitrogen	
1.84% Urea Nitrogen	
Available Phosphate (P ₂ O ₅)	18.00%
Soluble Potash (K ₂ O)	2.00%
Boron (B)	0.02%
Copper (Cu)	0.05%
0.05% Chelated Copper	
Iron (Fe)	0.10%
0.10% Chelated Iron	
Manganese (Mn)	0.05%
0.05% Chelated Manganese	
Zinc (Zn)	0.10%
0.10% Chelated Zinc	

Derived from urea, ammonium hydroxide, monoammonium phosphate, monopotassium phosphate, boric acid, copper EDTA, iron EDTA, manganese EDTA, and zinc EDTA.

FO02331

HAZARD NOT OTHERWISE CLASSIFIED

May be harmful if swallowed.

Oxi-Phos can be applied to potatoes, sugar beets, most vegetable and row crops, including cotton; deciduous fruit and nut trees; citrus; avocados; grapes; melons; ornamentals; alfalfa; turf, pasture, range and annual grasses.

Oxi-Phos liquid plant food contains primary plant nutrients and some micro-nutrients—which are chelated with EDTA—to provide for rapid assimilation into the plant's system.

Oxi-Phos liquid fertilizer is formulated to provide a fast method to: 1) boost plant growth during critical or high-growth periods;

Oxi-Phos is processed with agents aiding in spray tank wetting and dispersment. It will disperse in water with minimum agitation.

DIRECTIONS FOR USE

Mixing Sequence: 1. Water 2. Oxi-Phos 3. Other agricultural chemicals.

Use a minimum of 10 gallons of water when mixing with 32-Solution and other liquid fertilizers.

Application Rate: Apply at the rate of 1 to 4 quarts per acre to correct deficiencies of listed nutrients.

Foliar Application: Apply Oxi-Phos with 20 gallons of water per acre through conventional sprayers. When using low volume equipment or aerial application, 5 to 10 gallons of water per acre is usually sufficient. This product can be used in combination with other chelate/citrate-based products and/or many pesticides.

Soil Application with other Liquid Fertilizer: Oxi-Phos may be combined with other liquid fertilizer. Use a minimum of 10 gallons of water when mixing with 32-Solution and other liquid fertilizers. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application. Trace elements should be added to pre-plant fertilizer.

USE PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

In all cases, before mixing a full batch, it is recommended that a jar test for compatibility be conducted with any tank mix combination using Oxi-Phos. Do not mix and apply with copper and/or tin-based fungicides.

CAUTION

This fertilizer contains boron which may be injurious to certain crops. Contact your local county agent or field consultant for specific information.
