Derived From: Chicken Manure

Information regarding the contents and levels of metals in this product is available on the internet at :
<http://www.aapfco.org/metals.html>

Doses: Doses and mode of application are to be determined according to the requirements and the nutritional situation of the crop. Under standard conditions:

100 to 2000 lb per acre can be used. Consult an authorized Hello Nature representative for specific use and dose recommendations.
Other Uses: see our website

Directions: PELLCARB have been processed in a manner that eliminates human pathogens. However, in order to further limit any risk, raw animal manure must be incorporated into the soil at least 90 days before harvesting an edible product that does not come into contact with the soil or soil particles and at least 120 days before harvesting an edible product that does come into contact with the soil or soil particles.

Storage and Disposal: Store at temperatures between 39 °F and 110 °F. Keep in a dry place, away from light, water and humidity. Store in a safe manner. Store in original container only and keep tightly sealed when not in use. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Dispose of unused product and empty containers in accordance with federal, state and local regulations.

The safety data sheet is available on request by email: msds@hello-nature.com
