

PRIMER

DIRECTIONS FOR USE SHAKE WELL BEFORE USE

Field Crop Use: *Primer* is for use in combination with water-soluble plant nutritional products which are formulated for foliar, side dress or drip irrigation application on all crops excluding ornamentals and greenhouse crops.

Use 1/2 pint to 1 pint of *Primer* per acre in compatible tank-mix combinations. Apply foliarly with a minimum of 8 gallons of water per acre.

Applications may also be made through drip or sprinkler irrigation preferably at irrigation rates of 0.15 inch of water or less. To aid in leaf penetration, add a non-ionic surfactant or a spreader leaf penetration product according to its corresponding label.

Note: Read and follow dilution rate directions on the compatible tank-mix product label.

Seed Soak For Rice: Mix 16 to 24 fl. oz per 100 gallons of soak water. Soak 12-48 hours before seeding. *Primer* may be tank-mixed with registered fungicides for use on rice including bleach products. Soak water should be disposed of in accordance with best management practices.

All other seeds including but not limited to: Alfalfa, Vegetable, Cotton, Sunflower and other Small Grains Such as Wheat, Barley, Oats, Rye, Triticale and Others: For each 100 pounds of seed, apply 16 to 24 fl. oz (300-400 ppm) of *Primer* with an industry accepted seed treatment procedure that ensures contact with the seed. *Primer* may be tank-mixed with registered fungicides and insecticides for use in seed treatment.

Note: For all seed uses, be sure to conduct a small scale test for compatibility before mixing a full batch.

GUARANTEED ANALYSIS	
Total Nitrogen (N).....	2.2%
2.2% Water Soluble Nitrogen

INFORMATION

Primer is for use in all crops except ornamentals and greenhouse crops in combination with water-soluble nutritional products. It is believed to be compatible with most agricultural foliar nutrients, spray adjuvants, fungicides and insecticides. If physical compatibility is unknown, use a jar compatibility test.

STORAGE AND DISPOSAL

1. Storage: Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.

2. Container Disposal: Triple rinse (or equivalent), then offer recycling or reconditional, or puncture and dispose of in a sanitary landfill, or other procedures approved by state and local authorities.
