### **GENERAL INFORMATION**

RNA CROP OIL CONCENTRATE 1915 is an oil based adjuvant formulated to be used as a harvest aid and in postemergence weed control. RNA CROP OIL CONCENTRATE 1915 may also be used to replace crop oils.

Typical uses of RNA CROP OIL CONCENTRATE 1915 include mixtures with atrazine, most herbicides and to improve the effectiveness of defoliants.

The surfactants used in RNA CROP OIL CONCENTRATE 1915 are exempt from requirements of a tolerance as specified in Federal Regulation 40 CFR 180.920 for use on growing crops and raw agricultural commodities. Read all directions and warranty of sale. The directions on this label are based on field experience and should be followed for most effective and safest use.

### **USE PRECAUTIONS**

RNA CROP OIL CONCENTRATE 1915 increases the activity of herbicides and defoliants, therefore care should be exercised in applying to new varieties or highly inbred lines, or under certain weather conditions. High temperatures and high humidity tend to increase the activity of herbicides and defoliants and also the effect RNA CROP OIL CONCENTRATE 1915 may have on the mixture. The use of test areas is recommended if the above conditions prevail. If new mixtures are used, pretesting of the intended tank mixture is recommended.

## PREPARATION OF SPRAY MATERIAL

Fill spray tank one-half full of water. Then add the required amount of herbicide and continue filling. Add the specified amount of RNA CROP OIL CONCENTRATE 1915 and agitate mixture.

## DIRECTIONS FOR USE

**Ground Sprays using 50-300 Gallons/Acre:** Use one (1) quart RNA CROP OIL CONCENTRATE 1915 per 100 gallons of finished spray. For increased effectiveness, use 2 quarts per 100 gallons. For growth regulators and other selective sprays use 1-2 pints RNA CROP OIL CONCENTRATE 1915 per 100 gallons of finished spray.

**Aerial and Ground Sprays using 5-50 Gallons/Acre:** Use 1-2 pints RNA CROP OIL CONCENTRATE 1915 per acre in sufficient volume of water to provide good plant coverage with the equipment used. To increase effectiveness of sprays add 1-2 quarts per acre.

See individual label for use areas, rates per acre, total spray solution per acre and spray equipment (air or ground). Follow all instructions on the label.

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Store in original container only and keep tightly sealed. Store in closed storage area.

**PRODUCT DISPOSAL:** Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

**CONTAINER HANDLING:** Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate. Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org).
