GENERAL INFORMATION

RNA TRI-AD 73 is a nonionic general purpose spreader-buffer for use on all plants to improve the effectiveness of insecticides, herbicides, and fungicides, by providing more uniform leaf coverage, without excess run-off of spray on the leaf surface.

USE PRECAUTIONS

RNA TRI-AD 73 may not be compatible with certain materials. Excessive buffering of certain nutritional and crop protection materials may cause phytotoxicity.

NON-COMPATIBILITY: RNA TRI-AD 73 is not compatible with high pH products such as non-reactive lime or lime sulfur.

PHYTOTOXICITY: Excessive buffering of a spray solution that contains a combination of wettable powders or liquids may cause phytotoxicity to certain fruits and vegetables. Excessive buffering of sulfur, metal oxides, metal sulfates, metal oxychlorides, metal hydroxides, metal carbonates, lime-reacted metals, or neutral based metals such as basic copper or zinc may cause phytotoxicity to the buds, leaves or fruit. Please contact the manufacturer of the plant protection material for their recommended spray solution pH.

DIRECTIONS FOR USE

For insecticides, herbicides and fungicides, use ½ to 1 pint per each 100 gallons of finished spray solution. (In some cases as much as ½gallon per 100 gallons will be recommended.) **Some pesticides may require higher rates of RNA TRI-AD 73 for optimum performance. However, do not add this product at a rate which exceeds 5% of the finished spray volume. Follow pesticide label directions when this occurs.**

Always add RNA TRI-AD 73 to the spray tank prior to the pesticide requiring a buffered spray solution. Add while agitator is running.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Store in closed storage area.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate. Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org.
