

# STICK-IT ORGANIC

WA REG NO. 71975-08002  
CA REG NO. 71975-50003  
ID REG NO. 71975-10259

## an Extender-Sticker

### INGREDIENTS

Principal Functioning Agent:

Pinene Polymers.....	81.8%
Constituents Ineffective as Spray Adjuvants .....	18.2%
Total.....	100.0%

### WARNING

**Causes eye irritation.**

### PRECAUTIONARY STATEMENTS

Wash thoroughly after handling.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

### DIRECTIONS FOR USE

#### SHAKE WELL BEFORE USING

To improve the activity and efficiency of pestioidal sprays and soluble fertilizers apply 4 to 16 ounces of **Stick-It Organic** per acre. To improve the absorption and retention of foliar fertilizers, apply 4 ounces of **Stick-It Organic** per acre.

For use in air blast sprayers or hydraulic gun sprayers, apply 4 to 8 ounces of **Stick-It Organic** per 100 gallons of water.

**Note:** Do not apply to food crops within 30 days of harvest except as follows:

**Stick-It Organic** can be used with copper fungicides, *Bacillus thuringiensis* products and other tolerance exempt pesticide on food crops up to harvest.

**Note:** Use of **Stick-It Organic** with these exceptions may result in visible residues on crops which may render the crops unsellable.

### GENERAL INFORMATION

**Stick-It Organic** is a proprietary blend of terpene polymers and emulsifiers designed for use with pesticides and soluble fertilizers. This unique chemistry causes **Stick-It Organic** to form an elastic film that keeps the enclosed chemicals in contact with the plant surface. This film reduces pesticide and nutrient loss and often enhances activity of those chemicals.

In addition, the **Stick-It Organic** film improves retention of pesticides and foliar feeds on plant surfaces even during rain or sprinkler irrigation.

**Stick-It Organic** will not foam, freeze, or clog nozzles, and may be applied by aircraft or ground sprayer.

**Stick-It Organic** requires at least one hour of sunlight for the film to set. Therefore it must be applied during daylight, and at least one hour before irrigation or anticipated rain.

**Stick-It Organic** is not for aquatic use.

### COMPATIBILITY

**Stick-It Organic** is compatible with most agricultural chemicals. In all cases it is recommended that a **jar test for compatibility** be conducted, mixing each product in the same ratios as to be field applied.

### MIXING INSTRUCTIONS

Fill the spray tank half full of water, then add other desired components to the tank while agitating the mixture. Premix **Stick-It Organic** with more water and add while the tank continues to fill. Agitate mixture continuously while the tank is filling.

Use clean water to rinse spray equipment immediately after spraying. Though some residue may remain in the tank, it will help prevent rusting and corrosion and will not clog nozzles next time the sprayer is used.

### USE PRECAUTIONS

Do not apply this product to non-target surfaces and do not allow spray to drift. Permanent damage may occur on porous surfaces. On non-porous surfaces, remove spray immediately with soap and water while the spray deposit is still wet. Dried deposits on painted car surfaces can be removed using standard tar remover products designed for use on cars.

Do not apply when the weather is hot, windy or wet. Apply only when you are certain that the application will give you the desired result.

Do not allow spray drift or rinse water from spray tank to contaminate surface waters.

### STORAGE AND DISPOSAL

Store in original container only. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may be disposed of in a sanitary landfill.

### CONDITION OF SALE

Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions to the extent consistent with applicable law.
