GENERAL INFORMATION

TILL-IT® POWER BOOST ULTRA™ is a superior blend of TILL-IT BLUE-ZONE® ULTRA, PURIC™ MAX, MAX SET® ULTRA, VERSATILE® AGRA-MIX II, and 2.8 million CFU per gallon of soil enhancing bacteria. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality. Application of TILL-IT POWER BOOST ULTRA is a means of obtaining a quick response to needed elements.

TILL-IT POWER BOOST ULTRA should be used as part of a comprehensive Total Nutrition System® for optimizing plant growth, development, yield and quality. TILL-IT products are water soluble and move well in the soil solution. TILL-IT products may be applied separately or in combination with fertilizers or pesticides.

DIRECTIONS FOR USE

POP-UP APPLICATIONS: Apply 2-5 gallons per planted acre on seed as established by local agricultural practices. TILL-IT POWER BOOST ULTRA may be diluted with water for ease of calibration if needed. When applied in the seed furrow on very dry soils, a post plant irrigation within 24 hours is recommended. Use CAUTION when applying directly to the seed in very saline soils as there may be a risk of seedling injury.

STARTER APPLICATIONS: Apply 2-8 gallons per acre as a band directly below the seed or 5-20 gallons below and to the side of the seed line. TILL-IT POWER BOOST ULTRA may also be applied as a surface spray band over the top or to

the side of the seed prior to planting. Bluegrass, canola, rape, mustard, soybeans, and other small seed crops should have TILL-IT POWER BOOST ULTRA placed no closer than 2 inches from the seed. In applications of 3 gallons per acre or less, TILL-IT POWER BOOST ULTRA may be applied in-furrow with soybeans.

FOLIAR APPLICATIONS: TILL-IT POWER BOOST ULTRA may also be used as foliar spray at 2-4 quarts for row and field crops and 2-8 quarts for tree crops. Apply in a minimum of 5 gallons of water for every 2 quarts of TILL-IT POWER BOOST ULTRA.

TILL-IT POWER BOOST ULTRA can be applied through center pivot or drip irrigation systems, but check your water source prior to application for calcium or other impurities. Always jar test with water source for precipitation prior to actual field use.

COMPATIBILITY

The compatibility of TILL-IT POWER BOOST ULTRA with other products may vary. Always jar test new combinations for compatibility prior to field mixing.

Conditions of Sale and Limitation of Warranty and Liability:
