

# SPECIMEN

# TOLERO™

## IRRIGATION INJECTION SURFACTANT

### CONTAINS NON-PLANT FOOD INGREDIENTS

#### ACTIVE INGREDIENTS:

- 80% Polyethylene, Polypropylene Glycol, Block Copolymer
- 4% Alcohol Ethoxylates

#### INERT INGREDIENTS:

- 16% Inert Ingredients (Water)
- 100% TOTAL

Keep Out of Reach of Children

### WARNING

CAUSES SKIN IRRITATION.

CAUSES EYE IRRITATION.

**PRECAUTIONARY STATEMENTS:** Wash thoroughly after handling. Take off contaminated clothing and wash it before reuse. For specific treatment see the First Aid section on this label.

#### PERSONAL PROTECTIVE EQUIPMENT (PPE)

Wear protective gloves/protective clothing/eye protection/face protection.

#### FIRST AID

**IF ON SKIN:** Wash with plenty of water. If skin irritation occurs get medical attention.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

#### STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container.

### GENERAL INFORMATION

TOLERO is a unique blend of water management chemistries designed to improve the omnidirectional movement and retention of irrigation water or rainfall throughout the plant root zone, improving irrigation efficiency and enhancing the growing environment for the targeted crop.

### DIRECTIONS FOR USE

Always apply TOLERO in accordance with label instructions. Follow the application guidelines below.

### APPLICATION TECHNIQUES

Apply TOLERO at the time of planting or any time throughout the growing season.

For best results, inject TOLERO through an irrigation system, utilizing drip tubes, tape or micro emitter heads. Do not apply TOLERO through earthen ditches.

Prior to adding TOLERO to irrigation injection tanks containing water conditioners or plant nutrients, perform a jar test to ensure compatibility. TOLERO may also be applied through conventional spray equipment.

### USE RATES

Apply TOLERO at the rate of 1 quart per acre (2.34 liters per hectare).

Subsequent applications can be made at the rate of 1 pint per acre (1.17 liters per hectare) or increased to meet the needs of the crop, based on environmental conditions.

### APPLICATION INTERVAL

The time between applications may vary by crop, soil type or crop response to environmental conditions. The use of a soil tensiometer is encouraged to determine the required irrigation interval.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-jr.com>
