

TRANSFIX[®]

STICKER

PRINCIPAL FUNCTIONING AGENTS:

Beta-Pinene polymer.....	96.0%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT	4.0%
TOTAL.....	100%

The amount of active ingredient in the formulation does not determine the activity. Activity is governed by the type of film which is formed and this is determined by refinement.

All ingredients are exempted from the requirement of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye irritation.

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling.

STORAGE AND DISPOSAL

Keep in original container tightly closed. Store above 40° F. Do not store near heat or open flame. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

Have the product container or label with you when calling a Poison Control Center or Doctor, or going for treatment.

For Emergency, Spill, Leak, Fire, Exposure, or Accident, Call: CHEMTREC 1-800-424-9300

GENERAL INFORMATION

TRANSFIX is a excellent sticking agent intended for use with most crop protection products in which the label permits the use of a spreader sticker. TRANSFIX is compatible in spray solutions with most commercial crop protection and foliar feed micronutrients. A thin coating of TRANSFIX solution bonds the pesticide to the crop foliage. This decreases the risk of residue erosion from rainfall or irrigation.

DIRECTIONS FOR USE

For Terrestrial Use Only – Not For Aquatic Use

Add TRANSFIX to the spray tank as it is filling, with the agitator running. Performance is dependent upon environmental conditions. Transfix should be applied at least one hour before an expected rainfall. Sunlight during this time frame is also necessary for better adherence of the bond.

FOR USE WITH	PER ACRE	FOR USE WITH	
Insecticides	4-6 oz.	Air Blast Sprayers	4-6 oz/100 gal. Solution
Fungicides	4-6 oz.	Hydraulic Gun Sprayers	4-6 oz/100 gal. Solution
Hormonal Herbicides	4-6 oz.	Aircraft Sprayers	4-6 oz/Acre
Foliar Nutrient Sprays	4 oz.		

Note: Keep out of lakes, ponds or streams. Do not contaminate water sources by run-off from cleaning of equipment, disposal of rinse waters or spray mixtures.
