PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid	
If on skin:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-800-5556 for emergency medical treatment advice.	

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Product Description

Trimec® Speed Lawn Weed Killer Ready-To-Use is a selective herbicide that provides post-emergent control of listed broadleaf weeds in established residential lawns. Trimec Speed Lawn Weed Killer Ready-To-Use may be applied to lawns containing Kentucky bluegrass, perennial ryegrass, fescues, common and hybrid bermudagrass, bahiagrass, bentgrass, buffalograss, centipedegrass, zoysiagrass, and St. Augustinegrass (except Floratam). Trimec Speed Lawn Weed Killer Ready-To-Use will control or suppress more than 250 broadleaf weeds, dandelion, clover, henbit, oxalis, chickweed, knotweed, spurge, plantain, and many others as listed. Results will be visible within hours of application. Symptoms may include leaf reddening, leaf and stem curling and twisting, and chlorosis.

2. Use Restrictions

- For home lawns only.
- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until spray has dried.
- Do not apply as a fine mist because of potential for injury to desirable plants. Do not use this product on or near desirable plants, including contact of spray on exposed root systems or adventitious shoots within the drip line of desirable trees and shrubs, since injury may result.
- Do not use on Carpetgrass, Dichondra, food crops (gardens, fruits, and vegetables), forage crops, or ornamental plants (flowers, trees, shrubs, hedges, woody ornamentals, groundcovers, groundcovers established in landscape plantings), 'Floratam' St. Augustinegrass, and turfgrass species that are not listed on this label.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day.

3. Where To Use

Trimec Speed Lawn Weed Killer Ready-To-Use may be used on residential lawns without harming lawn grasses when used as directed. Turfgrass species which may be treated include Kentucky Bluegrass, Perennial Ryegrass, Fine Fescues, Tall Fescue, Bentgrass, Bahiagrass, Buffalograss, Centipedegrass, Common and Hybrid Bermudagrasses, St. Augustinegrass (except 'Floratam' St. Augustinegrass), and Zoysiagrass.

4. When To Use

- Spray when weeds are actively growing.
- Spray when air temperatures are below 90°F and are not expected to exceed 90°F for 6 hours.
- Hard to kill weeds may require a repeat application in 30 days.
- The number of treatments is limited to 2 per year.

5. How To Apply

- Remove wand from side clip.
- Pull connector by slightly twisting from holder and unwrap hose completely.
- Loosen screws of battery cover.
- Remove the insulation strip.
- Tighten screws again.
- Remove cover from cap and insert plug end of hose into knob opening on cap until it clicks.
- Flip open wand until it clicks and locks into position. Extend wand fully.
- Slide trigger lock on wand handle to the unlocked position.
- Twist nozzle toward STREAM until medium-coarse droplets are delivered.

Heavy Droplets

Medium-Coarse Droplets

Fine mist (for comparison)

How to use the battery operated sprayer:

- Point nozzle away from body and hold trigger for continuous spray.
- Hold tip of wand approximately 12-18 inches away from the target weed and spray to wet.
- Release the trigger to stop spray.

Important Use Information: Do not submerge in water. When storing sprayers for long periods, remove batteries.

6. Use Precautions

- Rain or watering 2 hours after application will not wash away effectiveness.
- Weeds in newly seeded lawns may be sprayed after the lawn has been mowed 3 times.
- Temporary discoloration may occur on St. Augustinegrass, centipede grass, and bentgrass lawns.
