READ SAFETY DIRECTIONS BEFORE OPENING OR USING

Trio Sterycon Oil Spray Adjuvant

ACTIVE CONSTITUENT: 700 g/L ETHYL AND METHYL ESTERS OF FATTY ACIDS DERIVED FROM REFINED CANOLA OIL

For use to enhance the penetrating properties of certain herbicides and pyrethroid insecticides.

IMPORTANT: READ THE ATTACHED LEAFLET BEFORE USE

Contents: 5 L - 1000L

CTS Chemicals Pty Ltd. ABN 22 605 759 644 Manning Buildings, 135 High Street Mall Fremantle WA 6160 Australia Phone 1800 749 140

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsing's to spray tank. Do not dispose of undiluted chemicals on site.

If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

For 110L and 1000L containers empty contents fully into application equipment. Close all valves and return to point of supply for refilling or storage. All containers remain the property of CTS Chemicals Pty Ltd.

SAFETY DIRECTIONS

May irritate eyes and skin. Avoid contact with eyes and skin. Avoid inhaling vapour or spray mist. Wear overalls, rubber gloves and goggles or disposable face shield. After each day's use was contaminated clothing, gloves and face shield or goggles with soap and water.

FIRST AID INSTRUCTIONS

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet that can be obtained from the supplier.

CONDITIONS OF SALE

CTS Chemicals Pty. Ltd. makes no warranty or guarantee and will not accept any responsibilities whatsoever and howsoever arising and whether for consequential, special or indirect loss or otherwise in connection with the supply, storage or use of these goods other than responsibility for the merchantable quality of the goods and such responsibilities mandatory imposed by Statutes applicable to the sale or supply of these goods. Always read the product labels on the container for all instructions, recommendations, critical comments and conditions of sale.

DIRECTIONS FOR USE

SITUATION	APPLICATION RATE PER 100L SPRAY VOLUME	CRITICAL COMMENTS
Post emergence herbicides	0.3 – 1.0L	TRIO STERYCON OIL SPRAY ADJUVANT may be used in place of non-ionic surfactants or crop oils. Subject to spray volumes, usage rates may vary between 0.2 – 2.0 litres of TRIO STERYCON OIL SPRAY ADJUVANT
Propaquizofop herbicides (100g/L EC) TOPIK	500 mls	For post emergence use on peanuts and soybeans. Refer to herbicide label. Wheat, post-emergence. Refer to herbicide label.
Pyrethroid insecticides	2.0 – 5.0L	TRIO STERYCON OIL SPRAY ADJUVANT may be used with certain emulsifiable concentrate formulations.
Defoliants Desiccants	0.6 – 2.0L/ha 0.6 – 2.0 L	TRIO STERYCON OIL SPRAY ADJUVANT may be used in place of crop oils. The higher recommended rate may be necessary when plants are subject to severe stress.

GENERAL INSTRUCTIONS

TRIO STERYCON OIL SPRAY ADJUVANT® is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides, pyrethroid insecticides, defoliants and desiccants. It improves pesticidal performance by utilising the excellent penetration effect or esterified vegetables oils in combination with the wetting and spreading characteristics of non-ionic surfactants.

HERBICIDE SPRAYS

TRIO STERYCON OIL SPRAY ADJUVANT® can be added to certain post emergent herbicides to increase their efficacy. In some situations, TRIO STERYCON OIL SPRAY ADJUVANT® may reduce selectivity. Care must be exercised when applying TRIO STERYCON OIL SPRAY ADJUVANT® with post emergent herbicides on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt it is a sensible precaution to trial a small area before committing to a large scale application.

PYRETHROID INSECTICIDES

Application of TRIO STERYCON OIL SPRAY ADJUVANT® to certain emulsifiable formulations of pyrethroid insecticides can improve efficacy.

MIXING INSTRUCTIONS

Follow direction on pesticide label. Half fill the tank with water and add required amount of pesticide with agitation. Top up tank with water followed by addition of required amount of TRIO STERYCON OIL SPRAY ADJUVANT® and continue agitation while spraying.

COMPATIBILITY

TRIO STERYCON OIL SPRAY ADJUVANT® is compatible with SELECT®, SPINNAKER®, SHOGUN® & TOPIK®.

PRECAUTIONS

Read all directions for use on the TRIO STERYCON OIL 700 SPRAY ADJUVANT® label. The pesticide manufacturer's direction and recommendation always takes precedence over directions on this label.

PROTECTION OF LIVESTOCK, WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Toxic to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsing's to spray tank. Do not dispose of undiluted chemicals on site.
