

CAUTION

**KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS BEFORE OPENING OR USING**

Trio Tebuf 700 Surfactant

**ACTIVE CONSTITUENTS:
350 g/L SOYAL PHOSPHOLIPIDS
350 g/L PROPIONIC ACID**

**ACIDIFIES. IMPROVES PENETRATIONS. REDUCES
ALKALINE HYDROLYSIS.**

IMPORTANT: READ THIS LEAFLET BEFORE USE

Contents: 1L – 1000L

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

Triple rinse empty containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Wash hands after use.

FIRST AID INSTRUCTIONS

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet that can be obtained from the supplier.

CONDITIONS OF SALE

CTS Chemicals Pty. Ltd. makes no warranty or guarantee and will not accept any responsibilities whatsoever and howsoever arising and whether for consequential, special or indirect loss or otherwise in connection with the supply, storage or use of these goods other than responsibility for the merchantable quality of the goods and such responsibilities mandatory imposed by Statutes applicable to the sale or supply of these goods. Always read the product labels on the container for all instructions, recommendations, critical comments and conditions of sale.

DIRECTIONS FOR USE

Not for use with sulfonylurea herbicides.

Situation	Application Rate	Critical Comments
Weed Killing Sprays General use Hairy or waxy leaves e.g. Nutgrass. Hard to wet leaves e.g. Couch Very cold conditions Dry dusty situation	100 – 200 mL / 100 L water 300 – 500 mL / 100 L water 500 mL / 100 L	Trio Tebuf 700 Surfactant can be used where the addition of a wetter/spreader is required. Trio Tebuf 700 Surfactant improves penetration on difficult to wet leaves wet and in tall dense vegetation. The higher rate of Trio Tebuf 700 Surfactant assists penetration in difficult situations.
Glyphosate, Paraquat and 2,4-D To improve penetration. To reduce the effects of hard water.	250 – 500 mL / 100 L water	Trio Tebuf 700 Surfactant is particularly beneficial with these herbicides to ensure even coverage of plant foliage and to increase absorption.
High pH or Hard Water To reduce the loss of efficacy caused by high pH or hard water	100 mL / 100 L water	Addition of Trio Tebuf 700 Surfactant to the spray tank will adjust the pH to 3.5-5 which will overcome the degrading effect of alkaline hydrolysis caused by water with a high pH. Pesticide breakdown will be reduced and spray activity will be maintained.

NOT TO USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Trio Tebuf 700 Surfactant is a speciality adjuvant for use with herbicide and pesticides. Trio Tebuf 700 Surfactant enhances the penetration of herbicides in situations where leaves are hard to wet due to waxy or hairy surfaces or in very cold conditions. Trio Tebuf 700 Surfactant also reduces the degrading effect to many pesticides caused by alkaline hydrolysis. In situations where water is hard or has a high pH, Trio Tebuf 700 Surfactant slight acidifies the water which improves the performance of many pesticides and extends the life in the tank.

Mixing

Half fill the spray tank with water and add Trio Tebuf 700 Surfactant under agitation. Add the recommended rate of agricultural chemical and top up the tank under agitation.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Toxic to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

Triple rinse empty containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

GHS STATEMENTS:

Additional information required under the Globally Harmonised System (GHS) classification of the substance/mixture:

Combustible liquid. Harmful if swallowed. Causes severe skin burns and eye damage. May cause respiratory irritation.

Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Do not breathe dust/fume/gas/mist/vapours/spray. Wear protective gloves/protective clothing/eye protection/face protection. Use only outdoors or in a well-ventilated area. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep cool. Immediately call a POISON CENTER or doctor/physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician. Call a POISON CENTER or doctor/physician if you feel unwell. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. Do NOT induce vomiting. In case of fire: Use dry chemical, CO₂, water spray or regular foam for extinction. Store locked up. Store in a well-ventilated place. Keep container tightly closed. Dispose of contents/container to an approved waste disposal plant.
