

PRECAUTIONARY STATEMENTS

DANGER: Hazards to humans and animals. Corrosive: Causes eye and skin irritations. Harmful if swallowed. Do not get in eyes or skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Ingestion may cause weakness, fatigue, headache, and vomiting. When mixing or applying agricultural sprays, always wear spray goggles and impervious gloves plus protective clothing as recommended on pesticide labels.

CONDITIONS OF SALE

The statements made on this label are believed to be true and accurate, but because of conditions of use which are beyond our control, the manufacturer does not make nor does it authorize any agent or representative to make any warranty or representation, expressed or implied, concerning this material or the use thereof except in conformity with the statements on the label. Neither the manufacturer nor the seller shall be responsible in any manner for any personal injury or property damage or loss resulting to buyer or to other persons from handling, storage or use of this material not in accordance with directions. The buyer assumes all risk and liability resulting from improper handling, storage or use and accepts and uses this material on these conditions. If these conditions are unacceptable to the buyer, he should immediately return the unopened product to the seller.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all recommended governmental procedures for disposal of pesticide spray solutions. Triple rinse container, empty rinsate and spray tank. Contact county agricultural commissioner for container disposal information.

PRINCIPAL FUNCTIONING AGENTS:

Alkylarylpolyoxyethylene Glycols
Isopropanol, Phosphoric Acid.....80%
Constituents ineffective as a spray adjuvant20%
All Ingredients are exempt from tolerance levels in CFR 40, 180.1001.

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID: If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area and seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

**SPREADER
ACTIVATOR
BUFFER**

GENERAL INFORMATION

UNIFAST-B is designed to increase wetting and give a more uniform coverage. When used with systemic or translocated material, UNIFAST-B increases absorption and aids in the translocation of certain herbicides, insecticides and miticides. UNIFAST-B is a combination spreader, activator, and buffer with non-foaming properties. UNIFAST-B is an 80% active non-ionic surfactant and is 8% active as a buffer. UNIFAST-B provides wetting, pH adjustment and also acts as an anti-foam agent.

DIRECTIONS FOR USE

This product may be used in dilute or concentrate sprays. Add UNIFAST-B to spray tank first.
Rates Per 100 gallons or less of spray mix.
For use with Acaracides, Insecticides, Fungicides Herbicides, and Defoliantes:

Use 1/2 pt. To 2 qts. per 100 gals. of spray solution.
Note: The above use recommendations are considered to be adequate for most uses. Some pesticides, however, may require higher rates for optimum effect. Follow the pesticide label directions when this occurs. However, do not add this product at a rate which exceeds 5% of the finished spray volume.
NOTE: Rates vary with the pH of the spray water. Spray water pH levels can be lowered by adding UNIFAST-B until the most effective pH level as recommended by the chemical manufacturer is achieved. If these levels are not known, consult the chemical manufacturer.
