**First Aid:** If inhaled, take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration. If in eyes, remove contact lenses, if present and if it is easy to do. Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up and seek medical assistance. If on skin, remove contaminated clothing. If accidentally ingested, seek immediate medical attention. Keep calm. NEVER induce vomiting.

**Environmental Precautions:** Product not classified as hazardous for the environment, avoid spillage as much as possible.

**Storage and Disposal:** Store according to local legislation. Store the containers between 41 and 95°F, in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep away from oxidizing agents and from highly acidic or alkaline materials.

Do not dump into sewers or waterways. Waste and empty containers must be handled and eliminated according to current, local/national legislation. Follow the provisions of the Resource Conservation and Recovery Act (RCRA) and the Resource Conservation and Recovery Act Information (RCRA Info) regarding waste management.

# **GENERAL INFORMATION**

VELEXI™ is an ultra concentrated liquid formulation of soil prebiotics, obtained through a proprietary fermentation process of selected plant material. This unique formulation is designed to promote the activity of soil microorganisms, improving aeration and nutrient availability, which ultimately contributes to a better soil environment for root development and nutrient availability for plants.

VELEXI's nitrogen is derived from protein hydrolysate. Protein hydrolysate is the material obtained by the hydrolysis of proteins to their constituent amino acids and polypeptides. They are a source of nitrogen.
