VERIMAX[®] AMS

WATER CONDITIONING AGENT
DEPOSITION AGENT

PRINCIPAL FUNCTIONING AGENTS:

Ammonium sulfate, glycerol acid complex, Acrylamide Sodium Acrylate Linear CoPolymer and, Siloxane	36.00%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS	64.00%
TOTAL:	100.00%

All ingredients exempt from the requirements of a tolerance under 40 CFR.

HAZARD STATEMENTS

May be harmful if swallowed.
May be harmful in contact with skin.
Causes mild skin irritation.
Causes eye irritation.

PRECAUTIONARY STATEMENTS

General:
If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.

Response:

Call a POISON CENTER or doctor/physician if you feel unwell.
IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell.
If skin irritation occurs: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

**KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

PRODUCT INFORMATION

VERIMAX AMS is a multi-function spray solution water conditioning and deposition agent for post-emergent herbicide, defoliant and desiccant sprays. *VERIMAX AMS* is designed to increase pesticide activity and improve absorption of the herbicide into leaf surfaces. *VERIMAX AMS* contains special buffering additives to help maintain pH in a slightly acidic range, and sequestering and chelating agents to neutralize harmful metal cations and improve the characteristics of hard water. *VERIMAX AMS* is compatible with Sulfonylurea Herbicides. *VERIMAX AMS* is formulated with a patented, high molecular weight viscosity modifiers and anti-foamant. *VERIMAX AMS* contains a defoamer to minimize spray tank foaming. *VERIMAX AMS* may be used when the pesticide label recommends the use of an ammonium nitrogen or ammonium sulfate additive, or in spray applications where the use of ammonium additives can positively affect pesticide efficacy. The efficacy of *VERIMAX AMS* and the effects of the spray application may be affected by various environmental factors and the condition and operation of the sprayer. Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate. When used according to the Directions for Use, *VERIMAX AMS* is compatible with most pesticides and fertilizers.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: Eye protection, long sleeved shirt and long pants, shoes plus socks and chemical resistant gloves.

FIRST AID

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF ON SKIN: Remove contaminated clothing. Rinse skin immediately with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give any liquid to the person. **DO NOT** give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

DIRECTIONS FOR USE

VERIMAX AMS is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, aquatic and non-crop uses. NOT FOR AQUATIC USE IN WASHINGTON STATE.

GROUND: 1-3 quarts per 100 gallons of water or spray solution (.25% - .75% v/v concentration). If the total spray per acre is less than 20 gallons, use a minimum of 1 pint of *VERIMAX AMS* per acre.

AIR: 1-3 quarts per 100 gallons of water or spray solution (.25% - .75% v/v concentration). **DO NOT** substitute *VERIMAX AMS* for water required by the label.

VERIMAX AMS, used at the suggested rates will deliver water conditioning activity equivalent to 3 to 8.5 lbs. of ammonium sulfate per 100 gallons of water.

PRECAUTION: Read and follow all pesticide label directions. **DO NOT** use where the pesticide label specifically prohibits the use of an adjuvant. The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances, which may increase the activity of spray solutions. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture or should apply a small test area before making large-scale applications.

Care should be exercised when using on new varieties or crops not previously treated with *VERIMAX AMS*. Make sure application equipment has been properly cleaned according to pesticide label directions. *VERIMAX AMS* is not intended as a replacement for adjuvants such as nonionic surfactants or crop oil concentrates. Follow pesticide label directions for the use of nonionic surfactants or crop oil concentrates. Always add *VERIMAX AMS* last with the agitator running.

STORAGE AND DISPOSAL

STORAGE: Store in original container only. Protect product from freezing. Prevent water from being introduced into the contents of this package. **DO NOT** use, spill, or store near heat or open flame.

DISPOSAL: Triple rinse container and pour rinsate into spray tank. Do not reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Dispose of contents/container in accordance with local/national regulations.

WARRANTY

The directions for use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of INNICTIS CROP CARE LLC or the Seller. All such risks shall be assumed by the Buyer. INNICTIS CROP CARE LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. **INNICTIS CROP CARE LLC MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. IN NO CASE SHALL INNICTIS CROP CARE LLC OR THE SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** INNICTIS CROP CARE LLC and the Seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of INNICTIS CROP CARE LLC.
