CAUTION: Keep out of eyes. May irritate eyes. Do not take internally. Wear protective eyewear and waterproof gloves. First Aid: Eyes: In case of eye contact, flush with large amounts of water for at least 15 minutes. If irritation should persist, get medical attention. In case of skin contact, flush with water. Ingestion: Contact a physician immediately.

General Information: WARM UP™ is a specially formulated concentrated pigment for treating turf where soil temperature rises are needed in a rapid period of time. WARM UP is not a dye, therefore it will not wash off, wear off or fade. WARM UP can be applied to all types of grass.

Directions for Use: Add the WARM UP to your desired amount of water and agitate continuously. Do not produce any more than will be used at one time.

Dilution and Coverage: Summer applications: (discoloration) Considering the variation of discoloration in the grass, add 4 to 10 ounces per gallon of water. Spray the solution at a rate of 2.5 gallons per 1000 square feet. Winter applications: (dormant) Add 10 to 18 ounces of WARM UP per gallon of water. Spray the solution at a rate of 3 gallons per 1000 square feet.

Storage and Disposal: Store above 40° F out of reach of children and domestic animals. Keep container tightly closed. Store in cool, dry area. Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.
