GENERAL INFORMATION

WE 153 improves the movement of irrigation water into and throughout the plant root zone. WE 153 makes water available to the crop over time, enhancing the growing environment for the targeted crop.

DIRECTIONS FOR USE

Always apply WE 153 in accordance with label instructions. Follow the application guidelines below.

APPLICATION TECHNIQUES

IRRIGATION INJECTION: Apply through an irrigation system utilizing drip tubes, tape, micro emitters or overhead sprinklers. Do not apply WE 153 through earthen ditches. Prior to mixing WE 153 with water conditioners or plant nutrients, perform a jar test to test compatibility. Agitation is recommended in fertigation tanks to ensure uniform injection of nutrients and WE 153. Always use back-flow prevention when injecting WE 153 or other injectable products.

SPRAY APPLICATION: On annual crops, apply WE 153 alone or in combination with nutrients, prior to planting. On perennial crops, direct the spray to the soil surface at the base of the plant. Irrigate immediately after all spray applications to move product into the soil.

NOTICE: DO NOT MAKE A SPRAY APPLICATION OF WE 153 TO THE FOLIAGE OF ANNUAL OR PERENNIAL CROPS AS PLANT INJURY MAY OCCUR.

USE RATES

Initial Application: Apply WE 153 at the rate of 1 quart per acre (2.34 liters per hectare).

Subsequent Applications: Apply WE 153 at the rate of 1 pint per acre (1.17 liters per hectare) or increase to meet the needs of the crop, based on environmental conditions.

APPLICATION INTERVAL

Apply WE 153 every 3 to 4 weeks. The time between applications may vary by crop, soil type or crop response to environmental conditions. The use of a soil tensiometer is encouraged to determine the required irrigation interval.

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.
