

ZIPP^{SOL}™ Ammonium Sulfate ZIPP^{SOL}™

Soluble Crystal Spray Adjuvant

DESCRIPTION

ZIPP^{SOL}™ is the *ONLY* spray grade ammonium sulfate made as a **PRIMARY** product. **ZIPP^{SOL}™** is **NOT A BY-PRODUCT** of another manufacturing process. Primary ammonium sulfate is made through the reaction of anhydrous ammonia and concentrated sulfuric acid to manufacture the purest, cleanest, most completely soluble product in the market. **ZIPP^{SOL}™** is formulated and packaged to insure it is the highest quality and freedom from contaminants. **ZIPP^{SOL}™** is double screened to assure uniform particle size and dissolves readily in the spray solution for maximum effectiveness.

GUARANTEED ANALYSIS

Ammonium Sulfate.....	99%
Constituents ineffective as adjuvants.....	1%
	Total 100%

Derived from Anhydrous Ammonia and Sulfuric Acid

DIRECTIONS FOR USE

Read and follow label directions for herbicide as to the procedures, dosage rate, timing of application, and restrictions for the crop on which the herbicide is to be applied. Always use this product in accordance with the instructions concerning additives found on the herbicide label. Ammonium sulfate solutions may be corrosive to the metal parts of sprayers or other equipment. Flush tank, pump, boom, nozzles, and the entire spray system thoroughly with water. Do not apply to any area not specified on the label. Ammonium Sulfate can stain concrete, so take precautions when applying in areas covered in concrete (driveways, monument, sidewalks etc.)

MIXING INSTRUCTIONS

Always mix this product in accordance with the instructions concerning adjuvants found on the herbicide label.

It is recommended by most herbicide labels to perform a jar test to check the compatibility with other ingredients.

In the absence of specific mixing instructions, fill the spray tank ½ to ¾ full with clean water. While the water is agitating, add tank– mix ingredients in the following order:

1. Add **ZIPP^{SOL}™** ammonium sulfate
2. Dry flowables, dispersible granules, water-soluble packets
3. Flowables
4. Water soluble herbicides
5. Emulsifiable concentrate
6. Finish adding water to final volume
7. Maintain agitation while spraying to ensure uniform spray mixture.

Note: **ZIPP^{SOL}™** bag contains 51 lbs. of product. The contents of each bag is adequate for up to 300 gallons of total spray material.

STORAGE

Store in a safe manner in the original container only. Keep in a cool, dry place. When local conditions such as humidity or pallet overhang might affect package strength, reduce stacking height.

DISPOSAL

Dispose of this bag in an environmentally safe manner as recommended for your area.

CAUTION:

KEEP OUT OF REACH OF CHILDREN.

First Aid

Skin Contact: Wash with mild soap and water. Seek medical attention if irritation occurs.

Eyes: Flush with running water for at least 15 minutes. Seek medical attention if redness and irritation persists.

Ingestion: Irritation may occur, seek medical attention.

Inhalation: Remove person to fresh air. Seek medical attention

IMPORTANT: READ BEFORE USE:
