

- > Very good roots and stalks for a flexible harvest window
- > Best performance in zone and south
- > Responds well to management

BY THE NUMBERS

GDU's to BL	2220	Stalk Strength	7	Common Rust	–
Plant Height	7	Green Snap	6	Southern Rust	–
Ear Height	7	Staygreen	7	Fungicide Response in Absence of Disease	–
Test Weight	7	Drydown	5	High Population Response	4
Kernel Rows	18–20	Drought Tolerance	6	Low Population Response	3
Cob Color	R	Gray Leaf Spot	–	Highly Productive Soils	4
Husk Cover	M	Goss's Wilt	6	Variable Soils	3
Emergence	8	Northern Corn Leaf Blight	–	Poorly Drained Soils	3
Seedling Vigor	7	Anthracnose Stalk Rot	–	Corn on Corn: Yield Retention	–
Root Strength	7	Fusarium Crown Rot	6		

Ratings: 1 = Poor | 4 = Excellent Cob Color: R = Red | P = Pink | W = White Husk Cover: S = Short, M = Medium, L = Long

All ratings and descriptions are subject to cultural practices and environmental conditions. Ratings and descriptions are based on research and field observations collected by F2F Genetics Network or provided to it by its suppliers. Individual results and performance may vary depending on local growing, soil and weather conditions.

Full Trait Name	Trait Abbreviation	Glyphosate Tolerant (GT)	Liberty Tolerant (LL)	Corn Growing Regions	Cotton Growing Regions

Master Farmer is a registered trademark of Rob-See-Co, LLC. **Important: Always read and follow label instructions. Some products may not be registered for sale or use in all states or counties. Please check with your local extension service to ensure registration status. Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides. Avicta Complete Corn 250 is a Restricted Use Pesticide.** For use by certified applicators only. Growers planting Avicta treated seed are not required to be certified applicators. Avicta technology is protected by U.S. Patent No. 6,875,727. CruiserMaxx Corn is an on-seed application of Cruiser 5FS insecticide delivered at the 0.25, 0.50 or 1.25 mg ai/seed rate and Maxim Quattro fungicide. Agrisure®, Agrisure Artesian®, Agrisure Duracade®, Agrisure Viptera®, Apron XL®, Avicta®, Cruiser®, CruiserMaxx®, E-Z Refuge®, and Maxim® are registered trademarks of a Syngenta Group Company. HERCULEX® and the HERCULEX Shield are trademarks of Dow AgriSciences, LLC. Agrisure® Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. Herculex® Technology incorporated into these seeds is commercialized under license from Dow AgroSciences, LLC. YieldGard VT Pro® is a registered trademark used under license from the Bayer Group. More information about Agrisure Duracade® is available at <http://www.biotradestatus.com/>. Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control. Liberty®, LibertyLink®, and the Water Droplet logo are registered trademarks of BASF. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
